

Products Ready for Your Brand

2026 PRODUCT & CUSTOM PACKAGING CATALOG

TWS earbuds, open-ear audio and smart wearables — with logo, retail box and custom gift-box support.

Choose the product. Build the packaging. Approve one clear sample.

WHO WE ARE?

We are **iSoud** (DongguanYuanshengpai Electronic Technology Co., Ltd.), a professional **OEM/ODM** manufacturer specializing in high-quality **TWS Bluetooth earbuds**.

Since our establishment in 2015, we have built a strong reputation for innovation, reliability, and excellence in the audio industry.

WHY CHOOSE US?

EXPERT R&D TEAM

Over 20 engineers with **10+ years of experience** in acoustic design, electronics, and structural engineering.

ADVANCED MANUFACTURING

12,500 m² factory with **10+ production lines**, ISO9001 & BSCI certifications, and strict quality control.

PROVEN TRACK RECORD

Annual sales grew from **\$50M (2017)** to **\$150M (2024)**, serving top brands like Philips, Lenovo, and UGREEN.

Your Trusted Partner in Premium TWS Earbuds Manufacturing

OUR STRENGTHS

A factory set up for product and packaging programs

One team connects product, logo, packaging, quality and export preparation.

PREVIEW BEFORE TOOLING

We can prepare artwork mockups first, then a physical box sample with the approved product, insert and accessories.

PREMIUM BOX PREVIEW

GIFT

See the structure and unboxing logic before production.

One clear path from product to custom packaging

Product, logo and box decisions are aligned before mass production.

01

Product brief

Choose the product family, market, channel, quantity and launch timing.

- Product direction
- Target market
- Quantity + timeline

02

Artwork + visual mockup

Confirm logo method, color direction and box structure.

- Logo artwork
- Box + insert
- Visual mockup

03

Sample + approval

Review one complete sample set before production.

- Product function
- Logo position
- Packaging + accessories

Brief

Artwork

Mockup

Sample

Production

Approve the product and the unboxing experience together.

Quality control follows the approved product and packaging

IQC, IPQC and OQC connect materials, production, finished goods and packing checks.

ENGINEERING

Requirement review

Product form, electronics, sound, firmware, logo method and packaging are reviewed before the sample is locked.

PRODUCTION

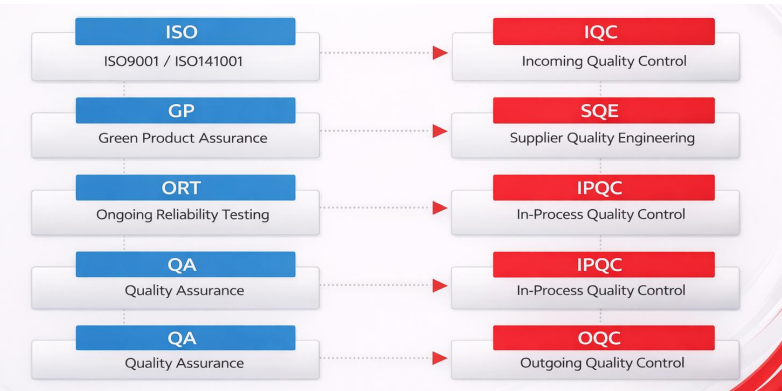

Production control

Approved product and packaging requirements are carried into line setup, process checks and packing instructions.

QUALITY

Triple QC

Incoming material checks, in-process inspection and finished-goods checks include product, accessories and packaging.

Compliance preparation is supported by SKU and project scope: CE, FCC, RoHS, REACH and shipment documents.

LET'S BUILD THE RIGHT LINE-UP FOR YOUR CHANNEL.

Send the target market, product family, quantity, logo file and preferred box direction. We will return a focused sample route.

One clear approval path for product, logo and gift-ready packaging.

BUYER-READY

Quality built. Service driven. Growth shared.

iSoud | Dongguan Yuanshengpai Electronic Technology Co., Ltd.
Prepared for EU/US retail buyers, importers and Amazon-style e-commerce buyers.

START WITH 5 ITEMS

Send a short project brief.

A useful first message includes:

1

Choose the product family

TWS, open-ear, sport, over-ear, ring or glasses.

2

Attach logo + packaging direction

Product logo, retail box, premium gift box or full pack kit.

3

Request sample + timeline

Confirm quantity, destination market and launch date.
